N Montasjeanvisning veggrist

GB Installation instruction wall grill

N

1. Utsparing i yttervegg:
Høyde: 330 mm
Bredde: 300 mm
Monter rist med piler oppover (A) og fest med 4 stk. skruer gjennom anvisninger. Bor opp frihull (B).
2. Kanal skal ha fall mot rist.
3. Kanal mellom aggregat og rist må isoleres (C).
Det monteres fleksibel kanal ut fra aggregatet (D).
Tape/silikontett godt mellom rist og kanal (E).

NB! Dersom risten kobles til Ø200 kanal, må den mindre kanaldimensjonene på risten skjæres bort.

GB

1. Make an opening in outer wall:
Height: 330 mm
Width: 300 mm
Mount the grill with arrows pointing upwards (A) and fix by means of 4 pcs. screws through the marking. Holes must be drilled (B).
2. Duct must be mounted with a slight grade towards grill.
3. Duct between unit and grill must be insulated (C).
Mount flexible duct out from the unit (D).
Tape (or use silicone) well between grill and duct (E).

Note! When the grill is connected to Ø200 duct, the smaller connectors on the grill must be cut off.
